EDUCATION

New Jersey Institute of Technology, Albert Dorman Honors College Expected May 2027
B.S., Human-Computer Interaction | GPA 3.8/4.0 | Newark, NJ

- **Honors:** ACM CHI 2026 Honorable Mention Award, Dorman Scholar, Dean's List (2023 to 2026), ADHC Board of Trustees Scholarship, Merit Scholar Award
- **Coursework:** Prototyping in UX, User Research Methods, Design for Accessibility, Human Factors, Systems Design and Analysis

EXPERIENCE

UX Research Intern | Amplify Education, Inc. Jun 2026 to Aug 2026

- Led an end-to-end research cycle for a digital practice tool: ran **12 semi-structured interviews**, synthesized themes in Miro, and delivered design recommendations for integrating the tool across Amplify's product ecosystem
- Triangulated UX metrics from **50K+ users**, **100+ NPS comments**, and **24 user interviews** to identify priority improvements that shaped Q4 roadmap prioritization

UI Designer | NJIT Campus Wellness Services Nov 2025 to Dec 2025

- Designed the interface for an incentive-based health education platform for a target audience of **~2,700 students**, taking it from wireframes to **high-fidelity mockups** built on **reusable UI components and interface patterns** for a consistent experience across devices
- Ran a campus-wide survey and turned insights from **30+ student responses** into design requirements and interface decisions aimed at increasing student engagement

UX Accessibility Researcher | New Jersey Institute of Technology Jun 2025 to Apr 2026

- Co-authored a systematic review of a decade (2015 to 2025) of social media video captioning research, published at **ACM CHI 2026** and awarded an **Honorable Mention (top 5% of accepted papers)**
- Synthesized **900+ data points** through thematic analysis and affinity mapping, surfacing accessibility barriers in captioned video across social platforms

UX Design Tutor | Norma J. Clayton Learning Center, NJIT Oct 2024 to May 2026

- Led **20+ heuristic evaluations** of student UX projects with actionable next steps, contributing to a **40% improvement** in UX design grades
- Coached 10+ students to assess usability and meet WCAG guidelines using human-centered design thinking frameworks

DESIGN PROJECTS

UX/UI Design Lead | Lyra: AI Learning Companion Apr 2025 to May 2025

- Led end-to-end design of Lyra, an **AI learning companion that adapts learning flows to each student**; prototyped the adaptive flows in Figma, and usability testing showed **task success up 48%** and **perceived usefulness doubled**
- Grounded design priorities in mixed-methods research (surveys, interviews, task analysis) with **60+ users**
- Led a 4-person team through a 4-week sprint from research to a tested, user-centered product

UX/UI Designer | Bucketize: AI Knowledge-Management System Jan 2025 to Feb 2025
IT485: Rapid Prototyping in UX, NJIT

- Designed Bucketize, an **AI knowledge-management system that captures expert know-how so teams can find and reuse it**, iterating 10+ wireframes and high-fidelity Figma prototypes through usability testing to a **4.8/5.0 user satisfaction score**
- Defined product requirements and feature specifications from SME interviews and workflow analysis of **114+ data points**

PUBLICATIONS

Like, Comment & Caption: A Decade of Social Media Video Caption Research (2015 to 2025). CHI '26, ACM. **Honorable Mention Award.** doi.org/10.1145/3772318.3791868

SKILLS

Design: UX/UI design, interaction design, user flows, wireframing, rapid prototyping, high-fidelity mockups, responsive design, accessibility-first design (WCAG)

Tools: Figma, Framer, Adobe Creative Suite, Miro, Maze, Blender, Notion

Research: Usability testing, user interviews, surveys, heuristic evaluation, A/B testing, customer journey mapping, competitive analysis

Front-End and Prototyping: HTML, CSS, JavaScript, Python, SQL, AI-assisted prototyping (Claude, Replit)
